

Date	Speaker	Institute	Title
29/01/2025	Maxime Ratinier	IVPC - Lyon	The molecular biology of Toscana virus
05/02/2025	Cyrille Mathieu	CIRI - Lyon	Pathogenesis of highly lethal Henipavirus infections
12/02/2025	Vincent Raquin	IVPC - Lyon	Presentation of MASCARA network Mosquitoes and arboviruses: surveillance and collective action in Auvergne-Rhône-Alpes (provisional title)
19/02/2025	Caroline Goujon	IRIM - Montpellier	Intrinsic and innate immune responses of host cells against RNA viruses
26/02/2025	Pierre Bost	Institut Curie - Paris	Dissecting Viral Infections One Cell at a Time: How and Why
12/03/2025	François Blanquart	CIRB - Paris	Evolutionary epidemiology of HIV virulence
19/03/2025	Jeroen Kortekaas	Boehringer - Lyon	Transboundary and emerging diseases: Getting ready
26/03/2025	Gaëlle Gonzalez	ANSES - Paris	Missions of West Nile virus reference laboratory and associated research projects (provisional title)
02/04/2025	Massimo Palmarini	CVR - Glasgow	Genetic resistance to zoonotic avian influenza viruses
09/04/2025	Nuria Busquets	CRESA - Barcelone	Mosquito-borne viruses: exploring mosquito-virus interactions
16/04/2025	Hélène Cécilia	BIOEPAR - Nantes	Mathematical modeling of transmission dynamics at different scales and implications for disease control
23/04/2025	Chris Bowler	IBENS - Paris	Viruses in the Tara ocean
